

# DCRI SITE COMMUNITY

*“We have found the [DCRI] leadership to be truly collaborative and receptive to ideas from the entire investigator group. As a result, the investigator group is enthused and always willing to consider participation in future studies.”*

Mark Hudak, MD

Professor and Chairman of the Department of Pediatrics  
Wolfson Children's Hospital, University of Florida College of Medicine-Jacksonville

## A FOCUS ON THE PATIENT

Now more than ever, patients are at the center of the work we do. Together, we're guiding groundbreaking studies on behalf of industry-leading sponsors and organizations such as the NIH and the Patient-Centered Outcomes Research Institute (PCORI). We are transforming clinical research by engaging patients, care providers, and health systems in collaborative partnerships that leverage health data to advance medical knowledge and improve health care.

Our goal is to support those who are on the front line of research: local sites and patients. Our site community brings an eagerness to learn from peers, enthusiastic curiosity, and rigor to every aspect of every study.

*“The best research comes from working together as a team comprising patients, local investigators, and coordinators, as well as colleagues here at the DCRI.”*

Lisa G. Berdan

Director, Global Outcomes Commercial Megatrials  
Duke Clinical Research Institute

## Collaborating to Improve Care

### You're in Good Company

As the world's largest academic research organization, the DCRI is committed to engaging you in compelling research that will help improve the health of people around the world.

**Based on a 2016 survey,  
our clinical sites are:**

#### EXPERIENCED

averaging

**12+** years

of clinical-research  
experience

#### ACTIVE

averaging

**15+** trials

at any time

#### VALUED

**89%** of respondents

feel valued as a

DCRI research partner
